SERVICES AND SUPPORT

HALF DAY ASSESSMENT

A half-day (3 hour) Assessment call involves working with a team of 2 or 4 people. Apostolic and Prophetic, who would begin (or complete based on the complexity) the process as listed above. That would take place over a recorded Zoom, Skype or Conference call.

Total cost for the 3 hour call with two people would be \$750.00 and a full written report is included with 4 people. The cost would be \$1,150.00.

PROPHETIC COACHING CALLS

A Prophetic Coaching call would take place with one of our Directors or Prophetic team and would be a one on one for specific targeted input for council/prayer.

Coaching calls are billed out at \$175 per hour for one team member and \$295.00 per hour for two team members on the call. This can also be a powerful time of revelation and obtaining keys to blockages, strongholds, and gaining understanding and perspective on a deeper level as to where you are now, and where the Lord is leading.

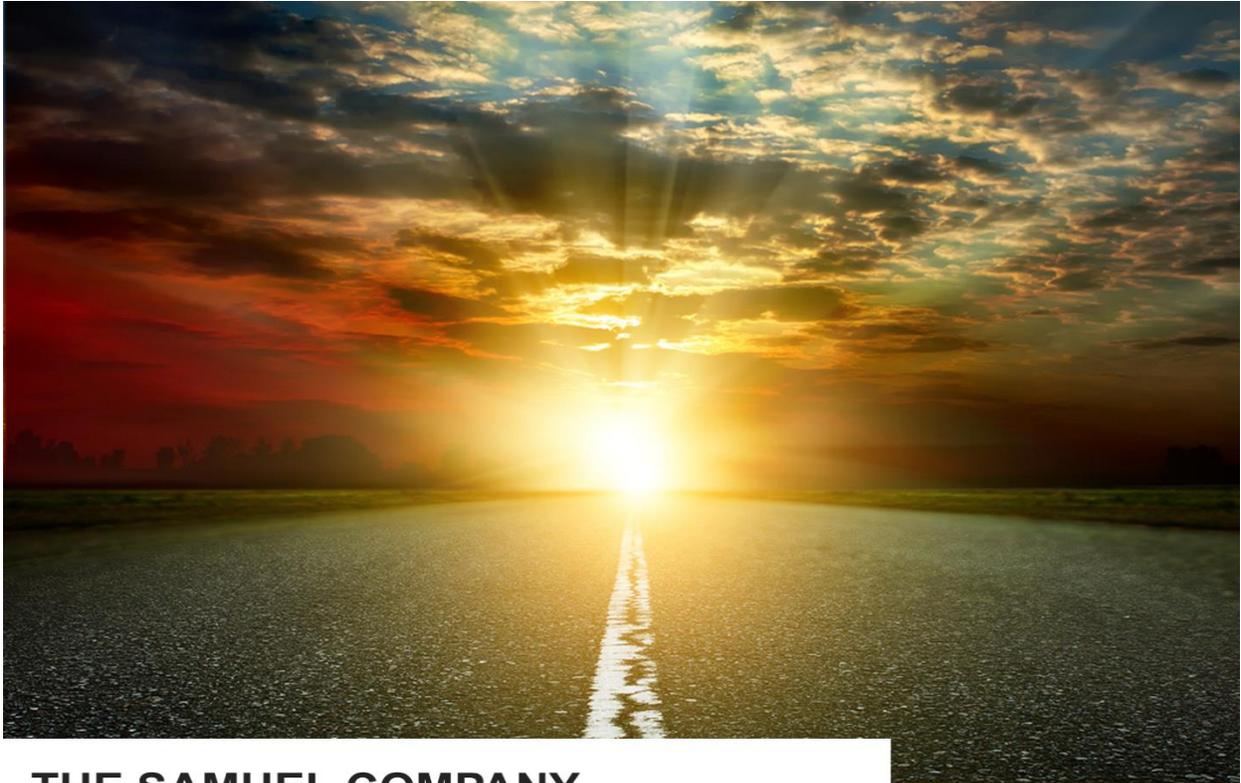

FULL DAY ASSESSMENT

“We look for
and contend for
the God-birther
seed and
assignment...”

A full day assessment normally takes place between 10:00 a.m. and 6:00 p.m. and can go into the evening if needed. It occurs in person and involves a team of 4 people, Apostolic and Prophetic, who look at foundational issues, birthright issues both personal and corporate, identifying fault lines, generation issues and strongholds and so on. It is a very intense but powerful time together where Holy Spirit unlocks things through a variety of keys.

We look for and contend for the God-birther seed and assignment, things that may be hindering that assignment, or limiting the full release of what God has purposed and planned. It is a very powerful time of revelation and renewal, bringing forth by grace, much freedom and fruit.

Total costs for the day \$2,500.00 + expenses for the 4 person team and this includes a full written report as well.

THE SAMUEL COMPANY

“Powerful times of discerning the Lord’s heart, calling forth identities, and unlocking destinies...”

The Samuel Company sessions are for those seeking the establishment of their God-given destinies and identities. The meetings will function by the gift of Prophecy and supported by a Spirit-led intercessory team.

They will be powerful times of discerning the Lord’s heart, calling forth identities, and unlocking destinies. Prophetic decrees, words of activation and proclamations will be released bringing transformation and establishment of the Lord’s purpose.

Inner healing will not be the main objective, though it may occur, but the Samuel Company sessions will be an avenue to provide a platform for His Kingdom of light to come and bring transformation.

Total costs for the Samuel Company sessions are \$250.00 per hour, which includes the actual session with Larry Pearson, the Prophetic Intercessory coverage for the call, and a full recording of all that is released. Follow up Prophetic Mentoring sessions will provide an avenue to review stewardship of the prophetic word and are available for \$175.00 per hour.

ONGOING PRAYER & INTERCESSION

“As a part of your support team, cheering you on and agreeing with heaven for His best for you in all things...”

Our goal in the on-going monthly intercession and prayer is to function as a part of your support team, cheering you on and agreeing with heaven for His best for you in all things. Strategic intercession is like the airforce team that goes ahead of the ground troops, clearing the way for you to do all that He has called you to do, and to take and possess the land He has given.

Each hour of prayer includes a variety of levels from our Directors prayer each month, this takes on a more Apostolic Governmental Prayer, our David’s Mighty Men prayer, a highly trained strategic team of intercessors, and your own personal skilled prophetic prayer team.

All of this is captured in a full and comprehensive summary report of all that was prayed through and received each month. That report is sent out to you at the end of each month for your review.

Our contracts are based on a month to month billing with an hourly rate of \$95.00 per hour, and can be increased or decreased as the need arises. Summary of services as listed.
